

Be the one to save a life.

BE THE MATCHSM

WOULD YOU HELP MARY?

Mary Rizk, Doctor of Medicine and mother of 4, was diagnosed with acute leukemia on April 20th, 2010. The only way to save her life is through a bone marrow transplant. Mary's hope for the future lies in identifying a volunteer donor who matches her HLA tissue typing. Would you be that donor if called upon? All it takes is a simple cotton swab of your inner cheek cells to see if you might be the match that can give Mary the hope of a cure!

Thousands of patients depend on the Be the Match RegistrySM to find a donor who can give them a second chance at life. You have the power to heal, the power to save a life. [Take the first step. Join the registry.](#)

JOIN THE MARROW REGISTRY
